INNOVA 24/7 LED SMARTBRIGHT™

the new look in handheld lighting takes functionality and versatility to a higher level.

Congratulations! You now own one of the world’s most intelligently engineered and useful personal lighting instruments. Your new 24/7 provides you with multiple functions, exceptional light performance and high durability.

OPERATION
Dial in light functions via the 24/7’s patent-pending, octagonal control:

0. Off Position
1. Low Output White
2. High Output White
3. Signal Strobe
4. S.O.S. Signal
5. 3 Color Distress Strobe
6. 2 Color Emergency Beacon
7. Night Vision Red
8. Locator Beacon

Position dial midway between any two functions to activate Locator Beacon.

BATTERY REPLACEMENT
The INNOVA 24/7 requires one (1) 123A lithium battery. Always ensure that the octagonal control dial is in the Off Position when changing the battery.

To replace battery:
1. Remove the black rubber battery cap by completely unscrewing it counter-clockwise.
2. Insert fresh battery with the positive (+) end up, toward the cap.
3. Replace the black rubber battery cap and turn clockwise to secure.

LIMITED LIFETIME PRODUCT WARRANTY
Emissive Energy Corp. warrants this light to be free from defects in material and workmanship for as long as you own the light, except in Emissive Energy Corp. warrants this light to be free from defects in material and workmanship for as long as you own the light, except in

EXCLUSIONS
This warranty does not extend to any light damaged by alteration, misuse or battery leakage. Battery expiration and battery leakage are excluded from the warranty and are not considered to be defects in the material or workmanship of the light. Specifically, Emissive Energy Corp. disclaims any responsibility for incidental or consequential damages. Some jurisdictions in the United States, Australia, and Canada do not allow exclusion or limitation of incidental or consequential damages and/or limitations on transferability, therefore the above limitations and exclusions may not apply to you.

USING THE 24/7
The Locator Beacon function produces an intermittent red light, allowing you to locate your 24/7 in the dark. In this energy-conserving mode, your 24/7 will emit light for 15,000 hours.

Note: while the 24/7 is water resistant, it is not designed to be used as a submersible flashlight (i.e. a diving light).

MAINTENANCE
Once every six months clean battery compartment and battery cap threads with a dry cloth, and apply a thin coat of silicone grease to the threads and the rubber O-ring at the base of the threads.

WARRANTY CLAIMS
Send the light along with $5.00 for shipping and handling to:
Emissive Energy Corp., Service Center
135 Circuit Drive
N. Kingstown, RI 02852 U.S.A.

For your protection and to expedite handling and/or postal claims we recommend that all returns be insured and sent Certified or Registered Mail. Return Receipt Requested. Postage due and freight collect items will not be accepted.

WARNING
CHOKING HAZARD - small parts. Not for children under 3 years old.

Keep lithium batteries out of reach of children. Should a battery be swallowed, immediately contact emergency health provider.

BATTERY INSTALLATION AND DISPOSAL SHOULD BE HANDLED BY ADULT in accordance with battery manufacturer’s instructions.

Customers are responsible for use, disposal and compliance with governmental regulations.

PATENTS
Manufactured under United States and international patent numbers: 6,670,874; 6,614,336.

US and international utility and design patents are pending.

Made in USA with US and imported components. The distinctive shapes, styles, packaging, configurations and overall appearances of all INNOVA flashlights and lighting products are trademarks of Emissive Energy Corp. The unique bulb configurations, body, and barrel shapes inherently identify them as members of the quality family of INNOVA brand products.
INOVA X 1
LED SPOTLIGHT
Like the X5, the X1 is a synthesis of design vision, stringent engineering standards and world-class LED technology, but in a sleek barrel shape just 3.9” long by .72” in diameter. This compact tool fits easily in pockets, briefcases, toolboxes and the like, so you can always have light at hand.

As for power, the X1 projects a perfect light circle up to 65’ and offers 1-mile signal visibility. Intelligent power regulation means you get constant, full-power light emission for up to 10 hours per AA alkaline battery. Its stainless steel head, aircraft aluminum hard-coat anodized body and quality components make the X1 a trusted companion in extreme environments.

INOVA X 5
LED FLOODLIGHT
The X5 packs high performance and extreme durability in a 4.75” anodized aircraft aluminum body crowned with a shockproof stainless steel head that encases 5 super-brilliant LED lamps. Crush-proof to over 2000 pounds, water resistant, and projecting pure light up to 120’, with 2-mile signal visibility, the X5 is a virtually indestructible, incredibly powerful instrument that is ready for just about any task. Its knurled twist-cap and end-button provide responsive control for constant on/off and momentary on operation. The X5 comes with two 20-hour-rated lithium batteries plus lanyard opening and secure ballistic nylon holster for transport.

INOVA XO™ LED FLASHLIGHT
The INOVA XO is the first flashlight to collect, concentrate and deliver +90% of the light generated by high-powered LED lamps. This breakthrough in optical efficiency means a light beam, effective up to 200’, that cuts the darkness like no other LED flashlight.

The XO’s patent-pending TIROS™ (Total Internal Reflection Optical System) one-piece lens is the technology responsible for its ability to project more light, farther, than any flashlight in its class. High performance is coupled with power regulating circuitry that provides peak, non-dimming brightness over the long life of each lithium battery set. Uncompromisingly rugged and reliable with best size-for-size light delivery, the police-quality XO is an efficient, compact tool that makes bulkier, less efficient flashlights obsolete.

INOVA X1® LED SPOTLIGHT
Like the X5, the X1 is a synthesis of design vision, stringent engineering standards and world-class LED technology, but in a sleek barrel shape just 3.9” long by .72” in diameter. This compact tool fits easily in pockets, briefcases, toolboxes and the like, so you can always have light at hand.

As for power, the X1 projects a perfect light circle up to 65’ and offers 1-mile signal visibility. Intelligent power regulation means you get constant, full-power light emission for up to 10 hours per AA alkaline battery. Its stainless steel head, aircraft aluminum hard-coat anodized body and quality components make the X1 a trusted companion in extreme environments.

INOVA LED MICROLIGHT
The Microlight is the smallest, brightest light — anytime, anywhere. Small but mighty, the Microlight is worlds apart from disposable imitators. The advantages span: 33’ light projection; one-mile signal visibility; water and crush resistance; extreme environment operation; and up to 15-hour battery life.

The Microlight features momentary on and constant on/off functions. Four available light colors enable you to select the optimum light for your application. A stainless steel lanyard clips to clothing and gear for secure, go-anywhere portability. For power, compactness and versatility, the Microlight is the macro performer in its class.
