

INOVA 24/7 LED SMARTBRIGHT™

the new look in handheld lighting takes
functionality and versatility to a higher level.

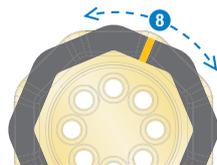

Congratulations! You now own one of the world's most intelligently engineered and useful personal lighting instruments. Your new 24/7 provides you with multiple functions, exceptional light performance and high durability.

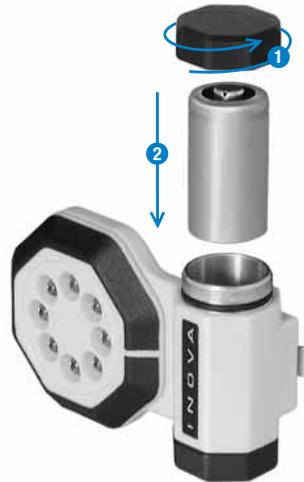

OPERATION

Dial in light functions via the 24/7's patent-pending, octagonal control:

- 0 Off Position
- 1 Low Output White
- 2 High Output White
- 3 Signal Strobe
- 4 S.O.S. Signal
- 5 3 Color Distress Strobe
- 6 2 Color Emergency Beacon
- 7 Night Vision Red
- 8 Locator Beacon

Position dial midway between *any* two functions to activate **Locator Beacon**.

BATTERY REPLACEMENT

The INOVA 24/7 requires one (1) 123A lithium battery. **Always ensure that the octagonal control dial is in the Off Position when changing the battery.**

To replace battery:

- 1 Remove the black rubber battery cap by completely unscrewing it counter-clockwise.
- 2 Insert fresh battery with the positive (+) end up, toward the cap.
- 3 Replace the black rubber battery cap and turn clockwise to secure.

USING THE 24/7

The **Locator Beacon** function produces an intermittent red light, allowing you to locate your 24/7 in the dark. In this energy-conserving mode, your 24/7 will emit light for 15,000 hours.

Note: while the 24/7 is water resistant, it is not designed to be used as a submersible flashlight (i.e. a diving light).

MAINTENANCE

Once every six months clean battery compartment and battery cap threads with a dry cloth, and apply a thin coat of silicone grease to the threads and the rubber O-ring at the base of the threads.

LIMITED LIFETIME PRODUCT WARRANTY

Emissive Energy Corp. warrants this light to be free from defects in material and workmanship for the life of the light, except in Germany, where law restricts product warranties to a maximum of ten years. If your light has a manufacturer's defect covered by our warranty, we will repair or replace this light, at our option, without charge when it is returned to an authorized service center or to Emissive Energy Corp.

EXCLUSIONS

This warranty does not extend to any light damaged by alteration, misuse or battery leakage. Battery expiration and battery leakage are excluded from the warranty and are not considered to be defects in the material or workmanship of the light.

Specifically, Emissive Energy Corp. disclaims any responsibility for incidental or consequential damages. Some jurisdictions in the United States, Australia, and Canada do not allow exclusion or limitation of incidental or consequential damages and/or limitations on transferability, therefore the above limitations and exclusions may not apply to you.

In the United States, Australia, and Canada, this warranty gives you specific legal rights; and you may have other rights which vary from province to province, state to state or country to country. This warranty does not affect the statutory rights of purchasers in the European Union, Norway, Switzerland, or Germany with regard to legal warranty claims, nor in France resulting from the legal warranty against hidden defects.

WARRANTY CLAIMS

Send the light along with \$5.00 for shipping and handling to:

Emissive Energy Corp., Service Center
135 Circuit Drive,
N. Kingstown, RI 02852 U.S.A.

For your protection and to expedite handling and/or postal claims we recommend that all returns be insured and sent Certified or Registered Mail, Return Receipt Requested. Postage due and freight collect items will not be accepted.

WARNING

CHOKING HAZARD - small parts. Not for children under 3 years old.

Keep lithium batteries out of reach of children. Should a battery be swallowed, immediately contact emergency health provider.

BATTERY INSTALLATION AND DISPOSAL SHOULD BE HANDLED BY ADULT in accordance with battery manufacturer's instructions.

Customers are responsible for use, disposal and compliance with governmental regulations.

PATENTS

Manufactured under United States and international patent numbers: 6,670,874; 6,614,336.

US and international utility and design patents are pending.

Made in USA with US and imported components. The distinctive shapes, styles, packaging, configurations and overall appearances of all INOVA flashlights and lighting products are trademarks of EMISSIVE ENERGY CORP. The unique bulb configurations, body, and barrel shapes inherently identify them as members of the quality family of INOVA brand products.

BRILLIANT EQUIPMENT FOR LIFE®

24/7 ACCESSORIES

A suite of quality accessories extends 24/7 usability, providing you with an arsenal of practical tools for hands-free operation. Accessories are not sold separately.

- S** Included in the 24/7 Standard retail package
- H** Included in the 24/7 Headlamp retail package
- A** Included in the 24/7 Accessories retail box

Neck Lanyard **S**

Adjustable slide-action neck lanyard enables precise flashlight positioning.

Headlamp **H** **A**

Adjustable headband provides 90° tilt-action positioning for everything from outdoor activities to industrial uses to auto repair.

Magnetic mount **A**

Magnetic mount, with 90° tilt-action positioning, enables instant attachment to metal surfaces, from cars and toolboxes to camping gear and home appliances.

Wall mount **A**

Wall mount attaches to surfaces via tape or screws (included) to create a permanent light base. Practical solution for the home, workshop, boat and more. Four mounts are included.

INOVA XO™
LED FLASHLIGHT

The INOVA XO is the first flashlight to collect, concentrate and deliver +90% of the light generated by high-powered LED lamps. This breakthrough in optical efficiency means a light beam, effective up to 200', that cuts the darkness like no other LED flashlight.

The XO's patent-pending TIROS™ (Total Internal Reflection Optical System) one-piece lens is the technology responsible for its ability to project more light, farther, than any flashlight in its class. High performance is coupled with power regulating circuitry that provides peak, non-dimming brightness over the long life of each lithium battery set. Uncompromisingly rugged and reliable with best size-for-size light delivery, the police-quality XO is an efficient, compact tool that makes bulkier, less efficient flashlights obsolete.

INOVA X1®
LED SPOTLIGHT

Like the X5, the X1 is a synthesis of design vision, stringent engineering standards and world-class LED technology, but in a sleek barrel shape just 3.9" long by .72" in diameter. This compact tool fits easily in pockets, briefcases, toolboxes and the like, so you can always have light at hand.

As for power, the X1 projects a perfect light circle up to 65' and offers 1-mile signal visibility. Intelligent power regulation means you get constant, full-power light emission for up to 10 hours per AA alkaline battery. Its stainless steel head, aircraft aluminum hard-coat anodized body and quality components make the X1 a trusted companion in extreme environments.

INOVA X5®
LED FLOODLIGHT

The X5 packs high performance and extreme durability in a 4.75" anodized aircraft aluminum body crowned with a shockproof stainless steel head that encases 5 super-brilliant LED lamps.

Crush-proof to over 2000 pounds, water resistant, and projecting pure light up to 120', with 2-mile signal visibility, the X5 is a virtually indestructible, incredibly powerful instrument that is ready for just about any task. Its knurled twist-cap and end-button provide responsive control for constant on/off and momentary on operation. The X5 comes with two 20-hour-rated lithium batteries plus lanyard opening and secure ballistic nylon holster for transport.

INOVA®
LED MICROLIGHT

The Microlight is the smallest, brightest light — anytime, anywhere. Small but mighty, the Microlight is worlds apart from disposable imitators. The advantages span: 33' light projection; one-mile signal visibility; water and crush resistance; extreme environment operation; and up to 15-hour battery life.

The Microlight features momentary on and constant on/off functions. Four available light colors enable you to select the optimum light for your application. A stainless steel lanyard clips to clothing and gear for secure, go-anywhere portability. For power, compactness and versatility, the Microlight is the macro performer in its class.
